Hello! Just following up on the below meeting request. If the CM is available to meet, would he have any availability on September 5? Many thanks for your consideration.

David,

I am writing to request a meeting with the Councilmember and my client 8minutenergy Renewables, which is based in Los Angeles and is the nation's leading independent solar PV developer. To date, 8minutenergy has closed over **\$2 billion** in solar Power Purchase Agreements in California.

The company has 2000 megawatts of solar PV farms under development, 900 MW in Power Purchase Agreements and over 200 MW in operation. In fact, over the last two years, they have been awarded 35% of all the solar projects procured in California. Every project generates local construction, operational, and service jobs, contributing millions of dollars to local and regional economies.

We would very much appreciate the opportunity to sit down with the Councilmember to discuss advancements in the solar energy & renewables market, including the increasing affordability of this technology, the potential to lower cost and give pricing stability for the medium and long-term future.

The attendees of the meeting would be myself and Tom Buttgenbach, the President of 8minutenergy.

Please let me know if the Councilmember is available to meet in the coming weeks. Thank you!

Veronica Perez
